## **Dr. HSRSM DENTAL COLLEGE AND HOSPITAL, HINGOLI**

### **Basic Research Methodology workshop evaluation report**

Date- 2/2/2023 TO 4/2/2023

MUHS Approval Letter No—MUHS/URD/23/2023 Dated 27-1-23

Online Basic Research Methodology workshop for PG students and faculty was organized and conducted at Dr. HSRSM Dental college and hospital, Hingoli dated from 2<sup>nd</sup> to 4<sup>th</sup> January 2023. 47 participants (including PGs from RRK dental college, Akola and Homeopathic college, Khamgaon), attended the workshop & six resource faculty conducted the workshop.

All the sessions were scheduled and conducted as per the guidelines given in MUHS regulation and notification dated 11/04/2016 for conduction of Basic Research Methodology Workshop.

1. Pre test and Post Test scores- The participant's prior knowledge about research methodology was assessed by the Pre-test questionnaires and the knowledge gain was assessed by Post test questionnaires. The average pre-test score of participants was found to be 9.45 out of 20 marks (47.25%). Post test- average score- 14.25 out of 20 marks (62.25%). Difference in Pre and Post test- 4.6 (23%).

2. Daily Evaluation Questionnaires- A set of questionnaire was daily given to get feedback on the daily sessions. The positive and negative responses of participants are summarized below.  
Positive feedback-

(2<sup>nd</sup> Feb - Day 1) Introduction to Research Methodology was sufficiently explanatory. Case control and cohort studies were well informative & interactive group activity made concepts very clear about differences in study designs including experimental study. Data presentation were amazing and eye opener. Every session the questions were rated as average 3 ( Good) & 4 ( excellent).

(3<sup>rd</sup> Feb- Day 2) Inferential statistics was too good, the hands on practice during the session was most highlighting feature. Writing research protocol was excellent with overwhelmed appreciation. Literature search along with use of software for literature search was very useful with live online demonstration was very excellent. Sampling methods and size was self

Dr. HSRSM Dental College and Hospital, Hingoli

explanatory & interaction with speaker helped to solve the difficulties. Rating of sessions 4 and 5

(4<sup>th</sup> Feb- Day 3) Medical ethics and qualitative research were good, ethics cleared many of the basic concepts. Critical evaluation of article was amazing, data analysis in excel was very good. For almost every PG students and teacher participants, dissertation writing was very useful and informative. Rating were 4 and 5.

### Negative Feedback

What could have been better?

2<sup>nd</sup> Feb - time management could have been better. Offline sessions would be more useful

3<sup>rd</sup> Feb - Sessions were lengthy. More group activities and interaction would have added in better session.

4<sup>th</sup> Feb - More practical & less theory, group discussion should have been added. Senior faculty needed time for such program. Feel sad of so many administrative work.

Overall Program evaluation- On the last day before valedictory function participants were given the program evaluation test. There was an overwhelmed positive constructive feedback for the smooth conduction and knowledge gain of workshop. In the participants perceptions the objectives of the workshop were achieved to a greater extent, workshop helped them in contributing their professional development. There is a need felt for such more academic activities and it should be organized regularly for updating faculty. This is for your kind information and necessary action.

Thanking you.
